

# University and Colleges PME & PowerLogic Users Group

Schneider Electric

April 21, 2022

Webinar

Life Is On

**Schneider**  
Electric

# Agenda

- 1 **Introductions**
- 2 **Objectives**
- 3 **McMaster – PME upgrade**
- 4 **PME reporting and hosting options**
- 5 **Case Study: UBC**
- 6 **Discussion**

# Schneider Electric Team

## Multi-discipline Team

- Schneider Electric Canada:
  - Yoann Briant
  - Mauricio Gonzalez
  - Roger LaPierre
  - Lakmini Perera
  - Matthew Puscus
  - Jesus Vargas
  - Tirtho Dutta Gupta
  - Sergio Bertani
- Schneider Local Reps:
  - Adam Campbell
  - Eric Langford

# Institutions Represented

Universities and colleges are active energy managers.

- Leading the way for sustainability and power system reliability on campus.

# Agenda

- 1**      **Introductions**
- 2**      **Objectives**
- 3**      **McMaster – PME upgrade**
- 4**      **PME reporting and hosting options**
- 5**      **Case Study: UBC**
- 6**      **Discussion**

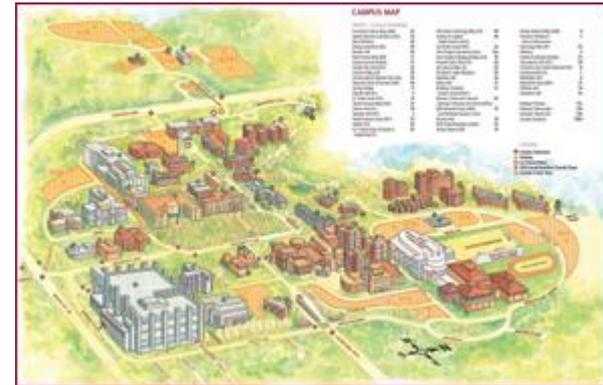

# PME Upgrade considerations

- Elliot Jeyaseelan – McMaster University

# Case Study – McMaster University

## PME2021 upgrade

- **System overview:**
  - Over 250 electrical and mechanical meters on campus reporting to PME for electrical, water, steam, gas.
  - Meters in every building, on multiple different subnets.
  - Energy management, PQ and cost allocation.
- **Requirement:**
  - Windows 2019 server upgrade
  - Reviewed PME on cloud for off-site PME hosting.
  - Considering fully-managed PME with remote DB backup.
- **Solution**
  - PME2021 upgrade with unlimited devices.
  - PME to remain on campus, full-managed by Schneider.
  - VEEM off-site backup.

# Agenda

- 1 **Introductions**
- 2 **Objectives**
- 3 **McMaster – PME upgrade**
- 4 **PME reporting and hosting options**
- 5 **Case Study: UBC**
- 6 **Discussion**

# PME Reporting and Hosting options

- Jesus Enrique Vargas – Schneider Electric

# PME Training

May 11, 12, 13 – Mississauga office

- Hands-on PME training.
- Management console
  - Add devices, user account management, etc.
- Dashboards
  - Diagrams, trends, alarming, displays
- Report development
- Vista diagrams.

# There are alternatives to look at the challenges

*But you can't manage what you're not monitoring!*

## CAPEX Limitations

impose **untapped efficiencies** in the facility and a significant cost of opportunity.

Changing optics is key to break the cycle and **benefit from digital technologies** without the burden of **upfront investment**.

## Overused Equipment

and lack of visibility put at **risk** not only efficiency but also the **safety of people**, the **facility** and the **business**.

## Emergencies & Downtime

are a **heavy cost** for any facility plus the **downtime** that takes to recover.

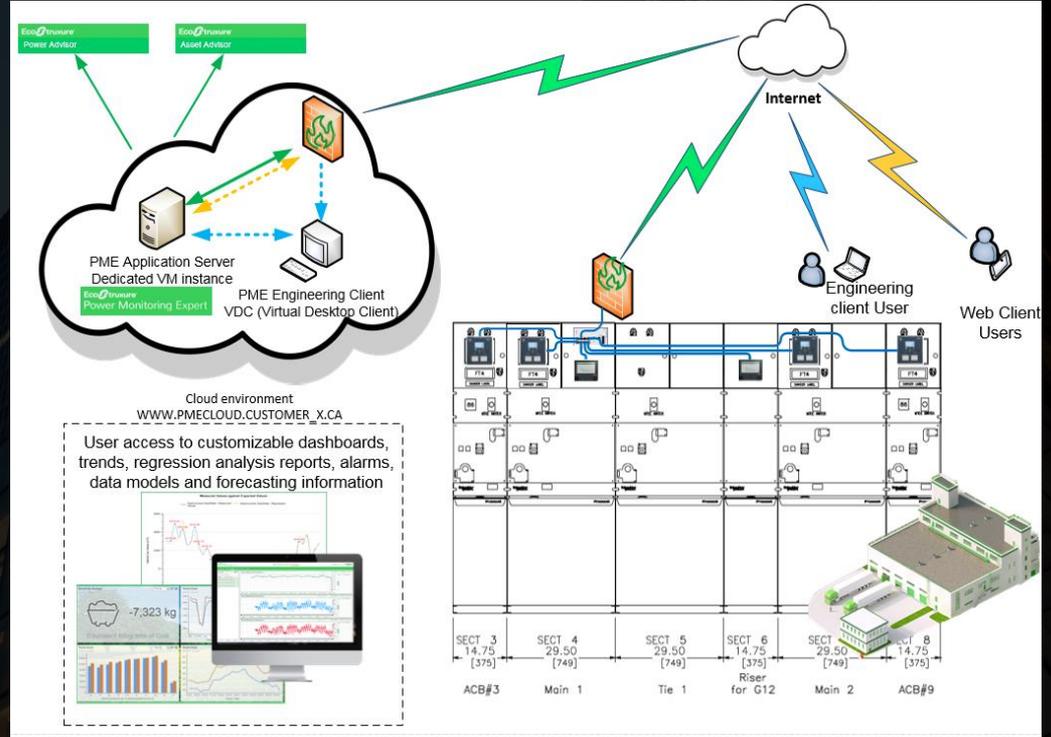

# EcoStruxure PME Cloud System Architecture

## WEB Portal

- ❑ On-premise meters installed
- ❑ Device integrated via VPN gateway (wired or wireless option available)
- ❑ System access via Web portal
- ❑ Energy Analysis reporting module only available

## Dedicated System

- ❑ On-premise meters installed
- ❑ Device integrated via VPN gateway (wired or wireless option available)
- ❑ Web Client access via URL
- ❑ Optional Engineering client
- ❑ PME modules optional for dedicated VM instance.

# Agenda

- 1 **Introductions**
- 2 **Objectives**
- 3 **McMaster – PME upgrade**
- 4 **PME reporting and hosting options**
- 5 **Case Study: UBC**
- 6 **Discussion**

# PME Integration

UBC upgrades PME to improve control

- Sergio Bertani - Schneider Electric

# EcoStruxure Power Operation

UBC UNY Substation Replacement

April 2022

Sergio Bertani

Life Is On

**Schneider**  
Electric

# Agenda

1 – Introductions

2 – EPO – Propose System Architecture - Review

3 – EPO & ETAP

As a technology company, we  
provide **energy and  
automation** digital solutions  
for **efficiency  
and sustainability**

...through lifecycle digitalization in buildings  
and infrastructure

With our full suite of best in class, end-to-end software

Design

Build

Operate &  
Maintain

# Scope of the Project

1. Supply of new MV switchgear

1. Breakers
2. Protection Relays
3. ION9000 power meters

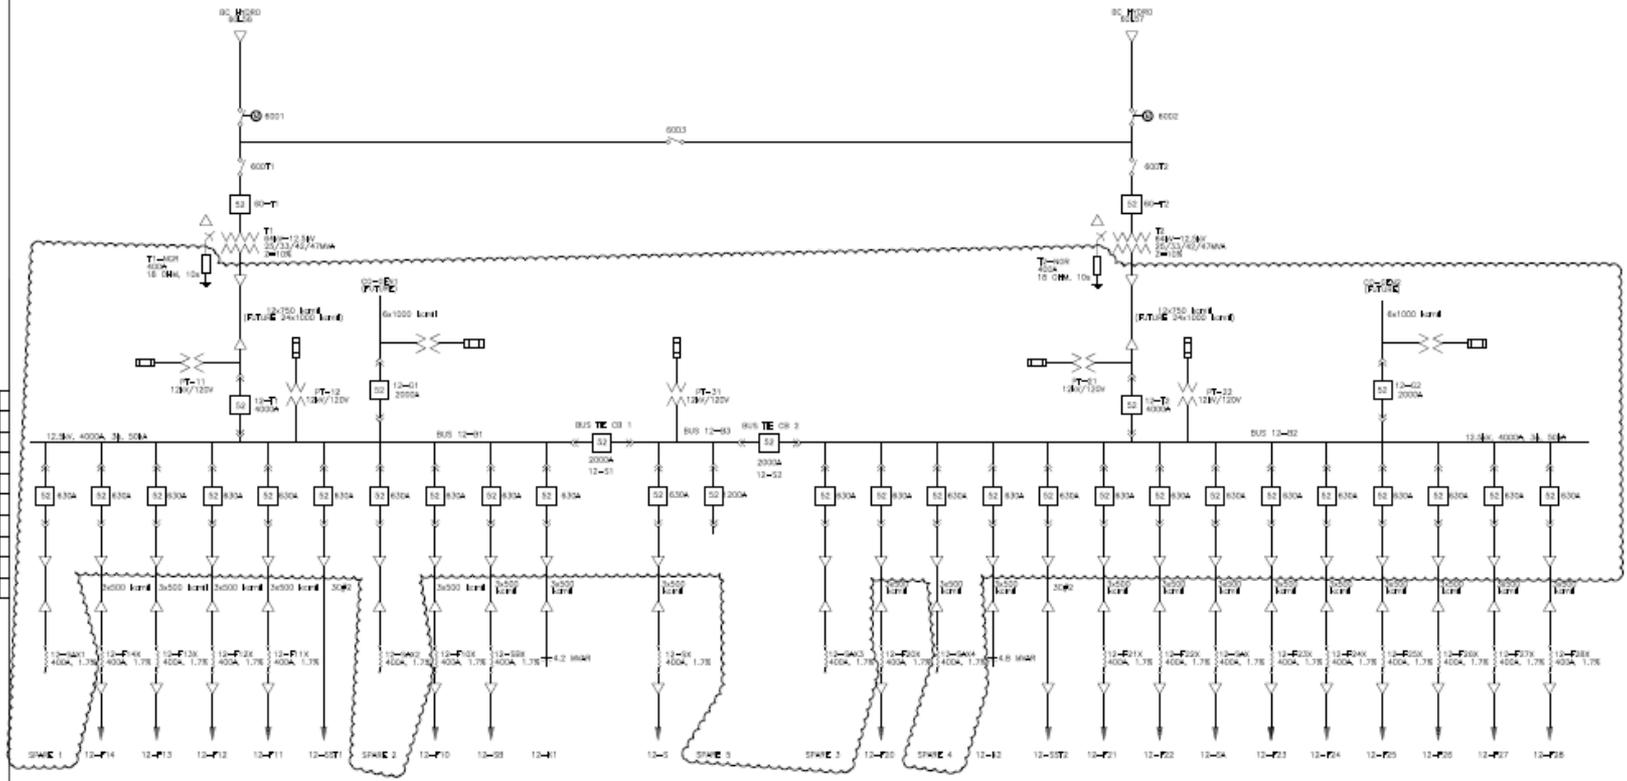

\* Value added:

1. Thermal Monitoring
2. Contact – Camera recording

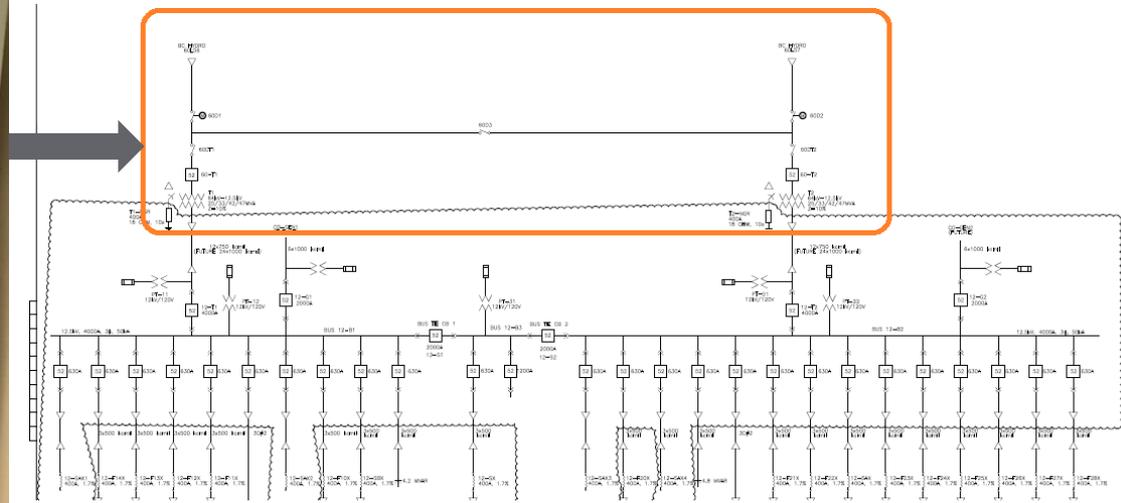

2. Connect equipment to existing Scada Panel

3. EPO + ETAP (Digital Twin)

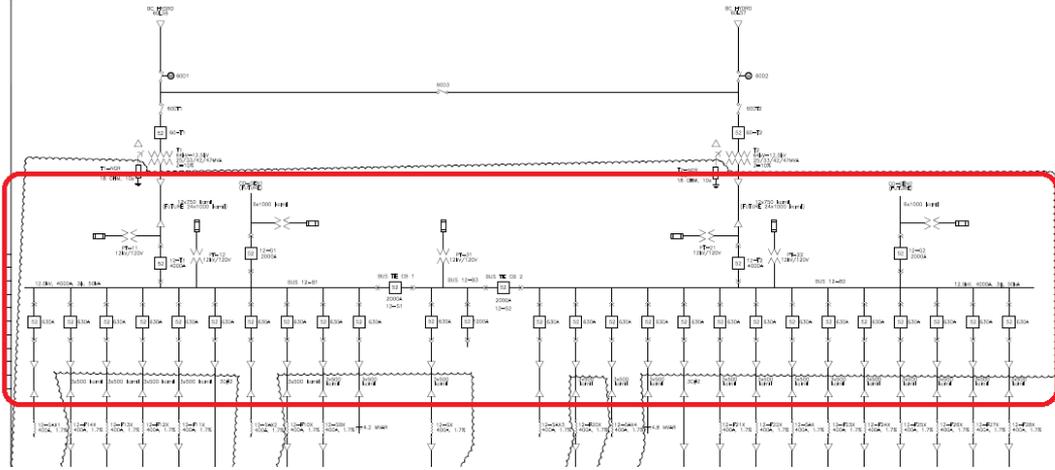

# • UBC – UNY Substation – Existing SLD

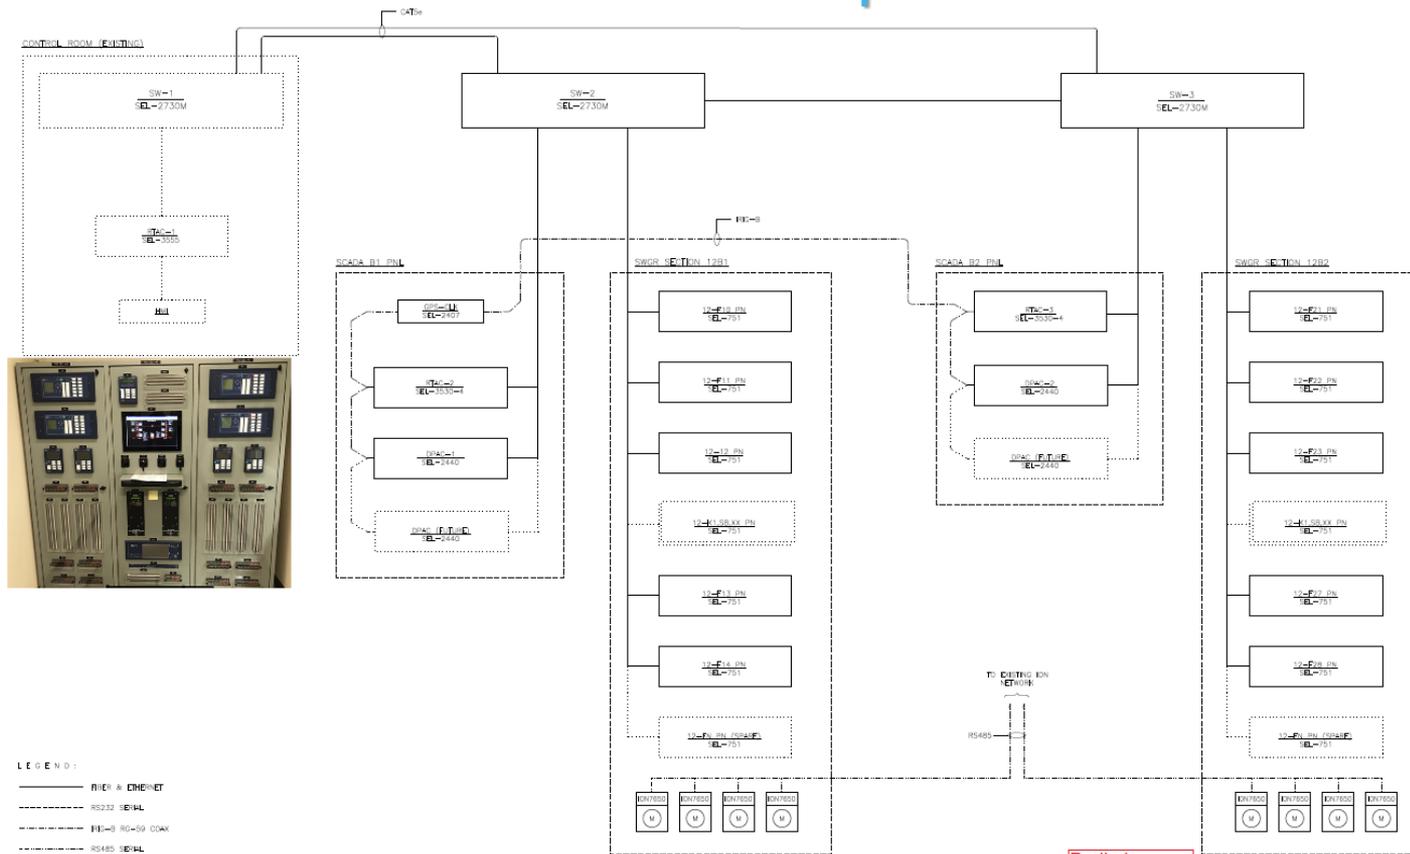

# Existing Scada Panel & Switchgear - HV

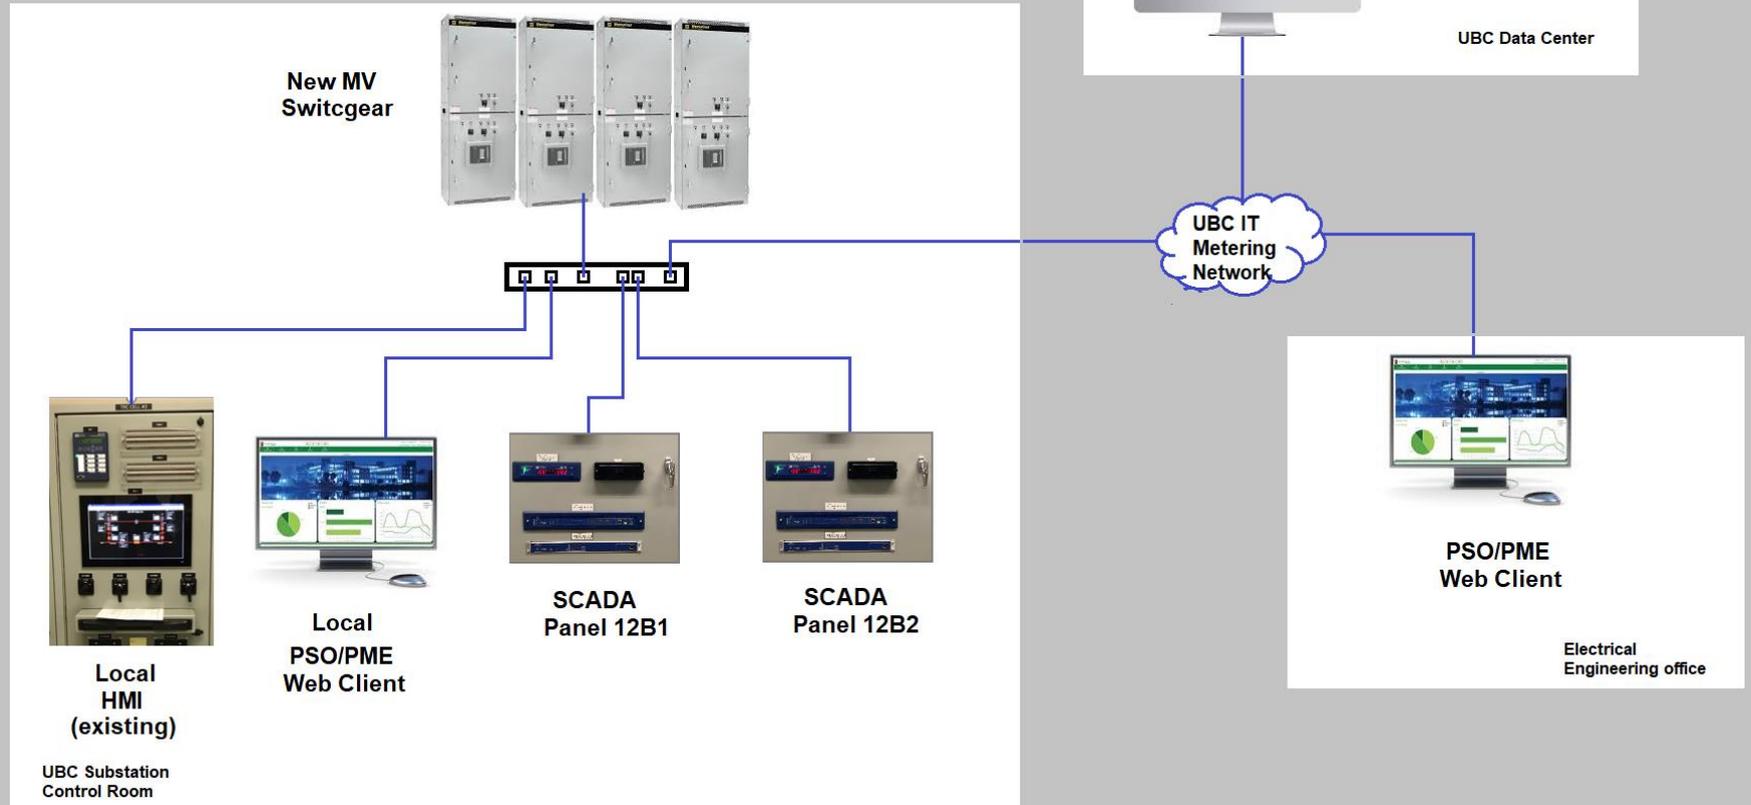

# Existing Scada Panel & Switchgear - MV

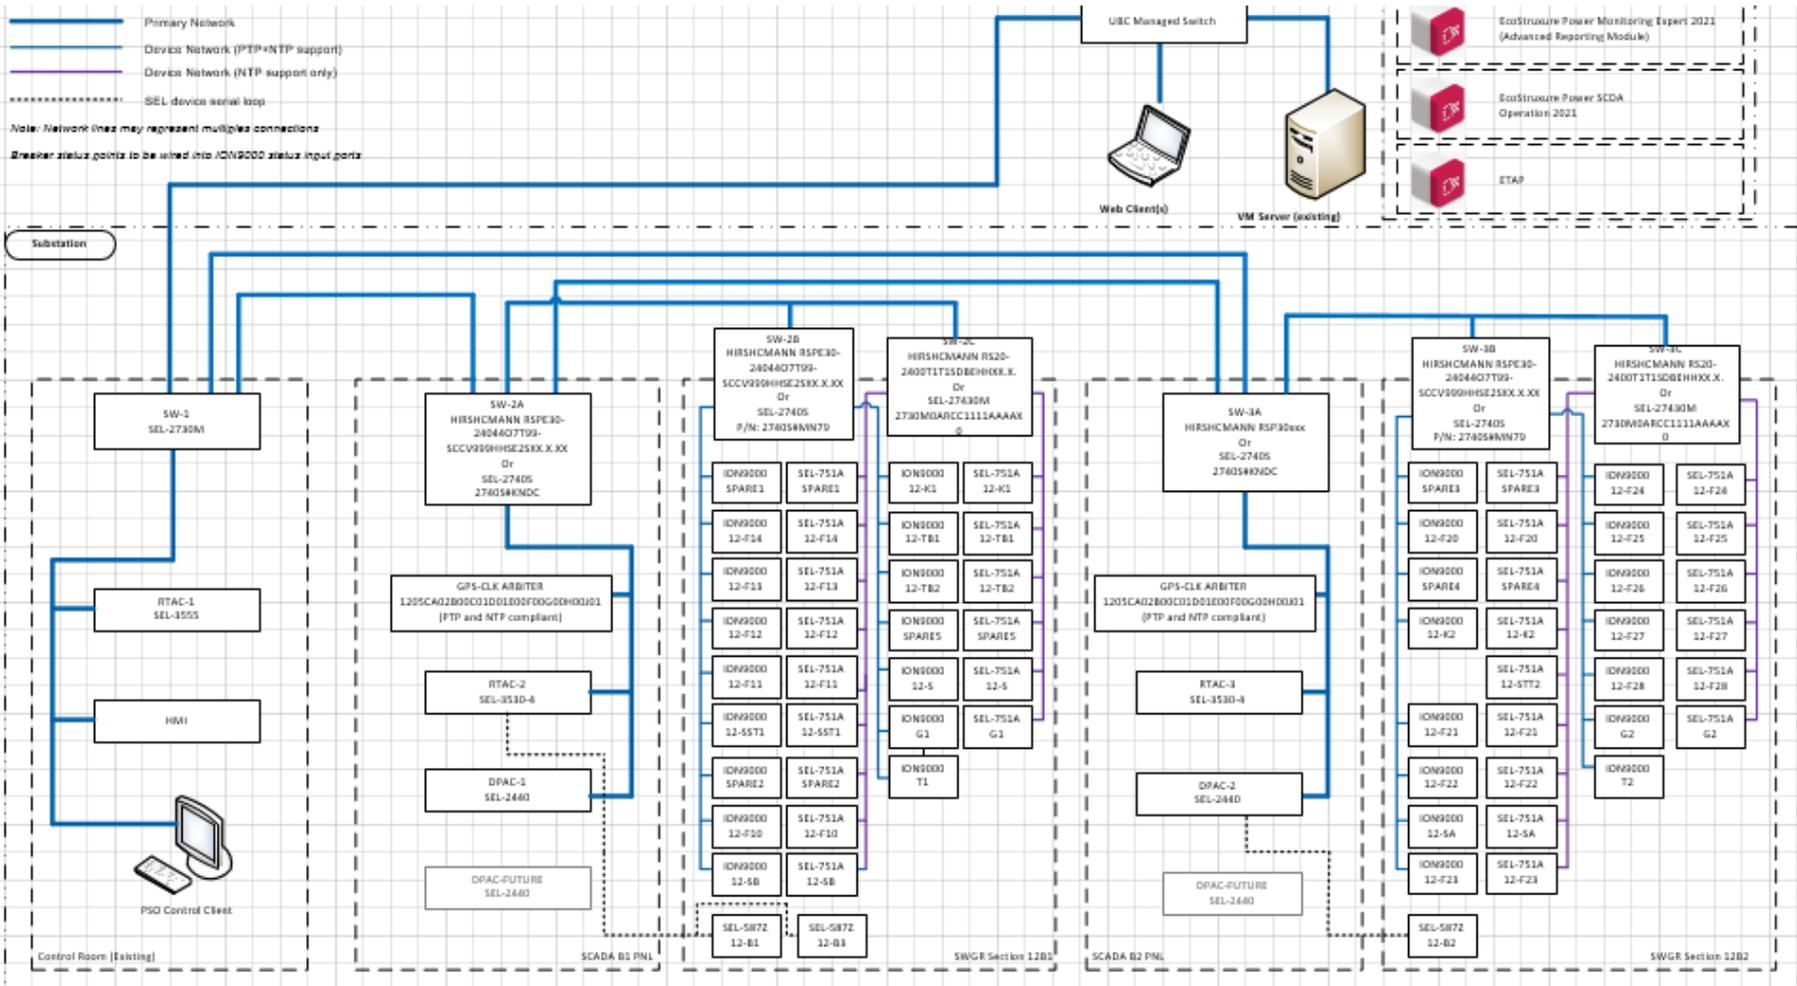

# UBC UNY New Substation - SCADA Specifications

# Propose SCADA architecture

# ETAP offers a complete solution portfolio

An evolutive solution to connect electrical engineering to operations & maintain

## DESIGN

- Model
  - Field Data Collection & Intelligent Modeling tool
  - Cloud based Collaborative tool
  - Verified & Validate Brand Agnostic Libraries
- Simulate & Analyze
  - From HV to LV → AC & DC Network Analysis
  - From steady state to dynamic simulations
  - From industrial to T&D segment incl. Grid Compliance

## OPERATION

- Predict & Control
  - Load Management
  - Predictive simulation "ETAP PSMS"
- Operate & Manage
  - Operator Training Simulator "ETAP OTS"
  - Protection & Asset Management "ETAP Eprotect"

## AUTOMATION

- Optimize
  - Energy & Power Management
  - Transmission & Distribution Management "ADMS"
  - Grid Code compliance monitoring
- Controllers
  - Microgrid
  - Power Plant (conventional and renewables)
  - Storage

# Agenda

- 1 **Introductions**
- 2 **Objectives**
- 3 **McMaster – PME upgrade**
- 4 **PME reporting and hosting options**
- 5 **Case Study: UBC**
- 6 **Discussion**

# Follow up

Other topics.

- PME Training May 11, 12, 13 in Mississauga.
- PLUG Tuesday November 8, 2022
- Presentation is posted at:  
<http://know-your-power.com/archive/ucug>
